

January 16, 1889.

Prof. Sereno Watson,
Cambridge, Mass.,

Dear Sir, -

We send you by mail today letter and M.S. from Mr. Douglas H. Campbell, of Bloomington, Indiana, which he has requested us to bring to the attention of our botanical Editors for examination with a view to publication. We do not know that you care to give the time for an examination of this and similar proposed publications, but we in no case accept M.S. for examination save on the understanding that they shall be submitted to the Editors of Dr. Gray's series of books.

Have you any report to give us on Miss Paine's Introduction to Plant Study sent you Nov. 21st last?

Yours truly,

Iverson, Blakeman & Co.
